PRESS RELEASE
(to the world's major / top media outlets)
FOR ISRAEL

From A.I.I. - across Africa, African Diaspora, and other nationalities of the world

Africa - Israel Initiative is a Christian organization that is on the frontline of mobilizing support and raising advocacy for the State and people of Israel. Top different church leaders in over 20 countries expressed the need to support and pray for the nation and people of Israel and the blessings aligned for those who do so.

Africa - Israel Initiative stands in solidarity with the Christian⁵ organizations throughout the United States that condemned the Biden administration for abstaining in a vote, which allowed the United Nations to pass a ceasefire resolution on Monday, March 25, instant.

We add our voices to those people of God who, in no uncertain terms, called out the Biden government.

We categorically and openly point to President Biden that he has just committed a second-degree holocaust. To this, we register our greatest disappointment.

As for the United Nations Security Council, this vote did not come as a surprise. From 1967 to 1989, the United Nations Security Council (UNSC) adopted 131 Security Council resolutions directly addressing the Arab-Israeli conflict. As of 2013, the State of Israel had been condemned in 45 resolutions by the United Nations Human Rights Council (UNHRC). The 45 resolutions comprised almost half (45.9%) of all country-specific resolutions passed by the UNHRC. So what happened on Monday is just an exhibition of the UN's old ugly self. We will continue to stand and speak against the compromising state of this organization: an organization that is supposed to unite the world but is only determined to disintegrate it.

We continue to stand with Israel and assert that Israel has every right to self-defense.

May the peace of God reign in that region.

The above has received top honour at the world stage.
